

SET Summer 2021 Schedule

Dear Chairs and Course Evaluation Coordinators,

As with many things this year, Selection for Maymester and Summer I SET has been pushed back a little. You'll have a chance to select those courses between May 10 and May 13, hopefully allowing schedules to be fairly settled and eliminated the extra back and forth with me after selection as new courses get added. If that timing will turn out to be problematic for any department please let me know so I can work with you as best I can. I'll have some ability to open access early, but I'll need to be fairly firm on the May 13 deadline.

I've attached the full schedule for Summer 2021 with dates for all three terms. I haven't included the report release dates on this schedule, but they are typically one week after the last exam for the term or seven days after the courses official end date (whichever is earlier in most cases).

As always, if you have questions or concerns about the SET process, please let me know.

Have a great day,

Heather Thompson
